Vanessa Goold of the Central New Hampshire Regional Planning Commission explained that she had digitized draft green infrastructure map and printed it on a sheet of mylar. The group overlaid this map on co-occurrence maps to further refine the boundary of the green infrastructure and to also prioritize the green infrastructure.

Ms. Goold said she would digitize the revised map and the group could further refine the boundary of the green infrastructure at the next subcommittee meeting in February. The Commission asked if the map could include the parcel data and if it could also be viewed over the aerial photograph. Ms. Goold agreed to bring that information to the next meeting.
