## **Public Session Policy**

### **Public Skating**

The purpose of public skating is to “ice skate or roller skate” staying upright without use of any skate aid and be able to propel oneself under their own power. Beginner skaters who need a skate aid may use one of the arena supplied skate aids at no charge. Skaters are not allowed to sit on skate aids and be pushed by another skater. *Baby strollers, sleds, etc., to pull children are not allowed. Persons using powered or non-powered wheelchairs may go on the ice if they can be safely operated. Guests in non-powered wheelchairs that need an assistant to push the wheelchair shall be accompanied by a person wearing skates. Guests using wheelchairs must check in with the ice arena to obtain information about the location to enter and exit the ice.*

### **Stick Practice**

The purpose of stick practice is for hockey players to work on their skills and or scrimmage with other players if they so choose. Participants must be able to skate “staying upright” without the use of any skate aid and be able to propel oneself under their own power.

Stick practice sessions are divided into two categories, adult (ages 14 and up) and youth (ages 13 and below). While full equipment is recommended the minimum equipment required for adult stick practice is a helmet, skates, gloves and a stick. During youth stick practice sessions full equipment is required and no adults are allowed on the ice.

*(Proposed Change in italic)*
