Food Truck Program Moves Forward in Concord, NH

CONCORD, NH — During the May City Council meeting, the City established a program expanding the areas where food trucks and mobile food service vendors can operate, as well as approving a new program which makes operating a food truck or mobile food service establishment more viable within the City of Concord. Permits are available on an annual or per diem basis.

Mobile food vendors and food trucks interested in participating should apply for a permit available at www.concordnh.gov/foodtrucks.

For questions related to this program, contact Health & Licensing Officer Gwen Williams in the Code Administration Office at (603) 225-8580 or at gwilliams@concordnh.gov.
