

Concord Public Library
Display Case Policy

Effective immediately, the display case in the lobby is no longer available to the public as a display area. Additionally, the stair display cases and display areas in the Children's Room are similarly unavailable to the public for use.

Library displays are used to promote materials, services, or events of the Library staff's choice. Display suggestions from the public are welcome, but choice of the display materials are left to the Library's discretion. In developing library exhibits, staff members will endeavor to present a broad spectrum of opinion and a variety of viewpoints.
