GENERAL INFORMATION

Water and sewer charges are calculated based on metered consumption in combination with fixed charges based on meter size using rates approved by the City Council.

Late Payment Charge – Assessed at 1½% of previous unpaid balances.

CCF – 100 cubic feet is 748 gallons.

We have included a return envelope with this invoice for your convenience.

Concord, NH 03301

BILL EXPLANATION

1. Customer Name / Bill Recipient

The customer / bill recipient is responsible for the payment of this bill. The current property owner is ultimately responsible for all utility bills associated to the service address, including any outstanding bills from a previous owner.

2. Customer Number

This is a unique number assigned to you to identify the customer. This number will stay with you if you change properties or have multiple service addresses. Please provide this number if you need customer service assistance. You will need to use this number when submitting a payment.

3. Parcel ID

This is the number associated with the mailing / billing address, which may not be the same as the service address. You do not need to use this number when submitting a payment.

4. Service Address

The address listed is the location of the property being billed for usage. Your service address may not be the same as your billing address.

5. Account Number

This is the number associated with the service address for your water/sewer account. This number will always remain with the property, regardless of the property owner. Please provide this number if you need customer service assistance. You will need to use this number when submitting a payment.

6. Previous & Current Reading

Meter readings record the numbers in white that represent the number of units of CCF (Hundred Cubic Feet) consumed. The previous meter reading is subtracted from your current meter reading to calculate your current month's CCF usage. Watch our YouTube video on ["How To Read Your Water Meter."](#)

7. Usage (CCF Consumption)

Water/sewer consumption is billed in Hundred Cubic Feet (CCF). 1 CCF is equivalent to 100 cubic feet (or 748 gallons). Multiply 748 by your CCF consumption to determine how many gallons of water are being consumed each month.

8. Rates

In addition to water and sewer charges being calculated based on consumption, a fixed monthly charge is applied both for water and sewer based on the meter size of each meter installed. View our [Summary of Rates & Fees Brochure](#) for to determine how your monthly bill is calculated.

9. Custom Messages

The bill message area is a space that will contain useful information. Read it to stay informed.

10. Automatic Payments

If you are enrolled in our automatic payment plan, [E-Z Pay](#), your bill payment will automatically be drafted from your bank account. Automatic payments occur the last business day before the due date. To set up E-Z Pay, fill out [our form](#) and return it to our Utility Billing Office at 311 North State Street.

11. Amount & Date Due

Payment of this amount must be received in full by this date to not be considered past due. Any outstanding balances after this date are subject to late fee charges.

12. Payment Stub

Tear off this section along the perforation and mail it in with your payment. Make any checks payable to the City of Concord.

Contact Information

Please call the Utility Billing Office at 603- 225-8693 if you have any questions about your bill. Visit our website www.concordnh.gov/utilitybilling for more information about meters and account services.
