The Blood Moon rises. The Blood Veil falls. The Tournament begins. Every generation, at the coming of the Blood Moon, seven livers each name a champion to compete in a tournament to the death. The prize? Exclusive control over a secret, wellspring of powerful resource in the world—one thought long depleted. But this year a scandalous tell-all book has exposed the tournament champions into the worldwide spotlight. The book also granted them valuable information previous champions never had—in strategies, secrets, and weaknesses. And most important, it gave them a choice: accept their fate or rewrite their legacy. Either be penned in blood.
