Often two abbreviations are joined, as ill.sgs., which signifies illustrated songs as part of a moving picture program. Or am. acr. means amateur actor, while am. sg. acs. means amateur singing actress.

The title of a play or opera that begins with the article A or The is indexed under the next succeeding word. The name of an organization, however, appears under the surname; thus Mack Sennett Bathing Girls appear under Sennett. But in case of the name of a play beginning with a Christian name, it is indexed under that name. Hence "Alvin Joslin" appears under A.
